Register your business FOR FREE on the new Ilkeston Town Centre Website

www.ilkeston.biz

Erewash Partnership in conjunction with Erewash Borough Council has produced a town centre website, specifically for Ilkeston town centre. The site allows ALL town centre businesses to have a FREE on-line presence!

This has been possible due to the Communities and Local Government (CLG) funding that the town recently received, and will be a real benefit to town centre businesses, shoppers and visitors.

The "ilkeston.biz" site will be launched in July 2010, and will include information on the following:

- History of the town
- Radiolink
- Town centre projects
- Local news
- Events
- Available retail units in the town
- Support for town centre businesses
- Ilkeston market
- Information for businesses wanting to come to Ilkeston
- Town centre maps & much more!

All you need to do is email the following information to: info@erewash-partnership.com

We will do the rest, it couldn't be simpler!

- Confirm your contact details including a phone number – For checking purposes.
- Your current website address if applicable - Visit www.gbbo.co.uk and create one for free!
- A picture of your business - optional
- 20 word maximum keyword business description – A list of products and services you offer.

Alternatively, complete the form overleaf, and return it to the Erewash Partnership.

Free full registration is only free until July 2011. After this, basic business contact details may still be added without charge.

The CLG funding will allow us to operate the site and display some additional information for all businesses, free of charge in the first year. These include:

- A fully searchable database of all town centre businesses – A real benefit to shoppers & businesses!!!
- A web link to a business's own website
- A picture of your business
- A map displaying your business location
- A 20 keyword description of the services/products your business offers

This will enable visitors to find businesses that sell certain products, and offer them all the information they need to find the shop.

The website already contains your business name, address and telephone number. However the above features will make it easier for customers to find your business and offer your contact details to the user.
